

Veeam Data Platform

Veeam keeps businesses running

Challenge

Outages and data loss are an unfortunate reality for businesses today. These outages can cause big risks to your company's reputation and revenue, because every minute of downtime means that critical data isn't accessible to your business.

Data is the fuel of business, and at Veeam, we are committed to keep businesses running. Veeam ensures organizational resiliency through a broad platform that provides data security, data recovery and data freedom for your hybrid cloud.

- Secure backup and recovery
- Proactive monitoring and analytics
- Proven recovery orchestration

✓ Multi-layered security gives you confidence that your data is always protected

✓ Recover exactly what you need, where and when you need it

✓ Protect all your data, anywhere, any way with zero lock-in

Key capabilities

Data security

- **Secure backup:** End-to-end security with encryption and immutability
- **Secure access:** Prevent unauthorized access and malicious actors
- **Secure recovery:** ransomware-free restores prevent reinfection

Data recovery

- **Instant:** Fastest restores of entire workloads with near-zero RTO
- **Granular:** Quickly find and restore individual objects, files and folders
- **Orchestrated:** Proven one-click recovery of large-scale complex operations

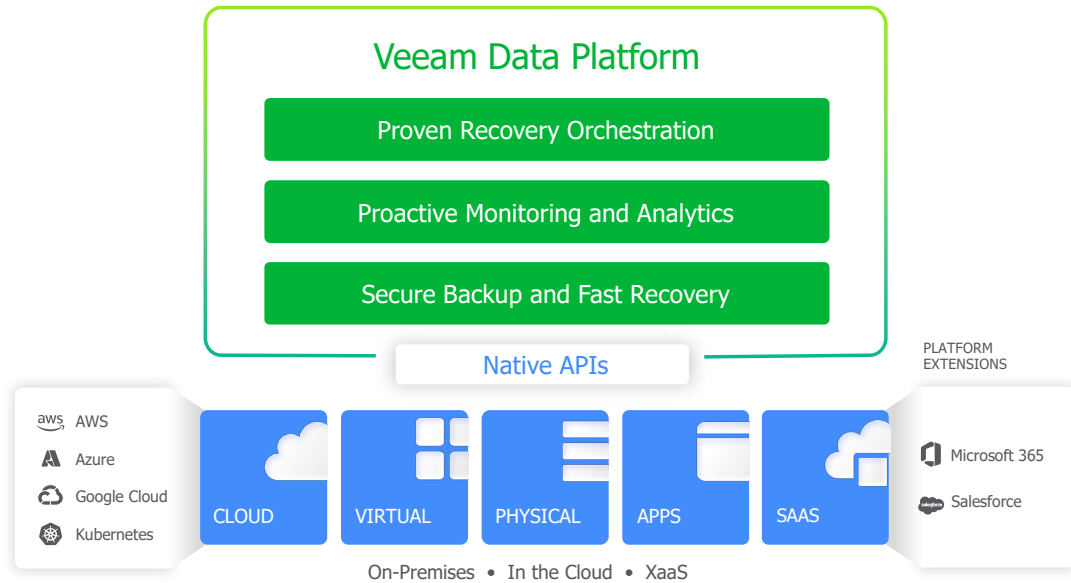

Data freedom

- **Broad workload coverage:** Native support for all critical workloads
- **Infrastructure observability:** Optimize reliability and costs across your desired infrastructure
- **Multi-cloud mobility:** Move data to, from and across platforms for complete control and flexibility

Protected workloads

Veeam Data Platform provides organizations with data resiliency through secure backup and fast, reliable recovery solutions for their hybrid cloud.
